

12V or 24V for wind power generation system

Overview

In our experience if you have 1 Deep Cycle battery then 12v is best, if you have 2 Deep Cycle batteries then 24v is best and if you have 4 or more Deep Cycle batteries then our 48v Wind Turbines would be best for you.

12V or 24V for wind power generation system

[800-1000W.12v/24v Wind Generator Kit.5-Blade Lantern Wind Generator](#)
