

14 lithium iron phosphate battery pack 48v

Overview

What is a lithium iron phosphate battery?

High-power lithium iron phosphate batteries are now a reality. They can be used as storage cells or power sources. In addition, Lithium Iron Phosphate batteries are among the longest lived batteries ever developed. Test data in the laboratory show up to 2000 charge/discharge cycles.

How much does a lithium iron phosphate battery cost?

or 4 interest-free payments of \$107.50 with ECO-WORTHY LiFePO4 48V Lithium Iron Phosphate Battery has twice the power, half the weight, and lasts 8 times longer than a sealed lead acid battery, no maintenance, extremely safe and very low toxicity for environment.

Why should you choose a lithium-iron battery?

It makes installation and movement more easier. ·Long Life Cycle: Grade A LiFePO4 Cells makes the 50Ah battery more stable and greater, and the lithium rechargeable battery cycles more than 3000 times, which is more than 4 times comparing with Lead-acid batteries. And our lithium-iron batteries can maintain 80% capacity after 3000 deep cycles.
