

305 kW inverter

Overview

What is luminous Solar Grid tie NXi 305 5kW?

Anti-Islanding Protection: Disconnects the inverter from the grid during power outages, ensuring safety for line workers. More Information Download Catalog Luminous Solar Grid Tie NXI 305 5kw Three Phase On Grid Inverter (exc. Dongle) Luminous Nxi Grid Tie Inverter are power Inverter that can feed power from solar panels directly to grid.

How efficient is a solar inverter?

High Efficiency: The inverter boasts a maximum efficiency of 98.3%, according to L&T-SuFin, with some sources claiming up to 98.6%. Built-in MPPT Charge Controller: This feature is designed to optimize power extraction from solar panels, potentially boosting energy yield by up to 30%.

How many MPPTs does a Solis inverter have?

Solis' largest three-phase, 1500 VDC PV string inverter has 12 MPPT (250, 300 and 350) or 16 independent MPPTs (350K) options that allow for great redundancy in larger systems. Redundancy through a distributed method supports overall system uptime.
