

340w photovoltaic panel price

Overview

The 96-cell HIT® N340 solar panel provides a powerful combination of increased module efficiency, energy savings and durable long-term performance. Featuring a 20.3 module efficiency and 340 watt.

What are 340 watt solar panels?

The 340 Watt solar panels that we currently offer are 96 cell solar panels that are very similar to 60 cell solar panels due to the use of smaller solar cells. 340 Watt solar panels we offer have eight solar cells going across and 12 solar cells going down. The dimensions of a 340 Watt solar panel are about 62.5" x 41.5" x 1.6".

How to install a 340 watt solar panel?

A 340 solar panel can be installed with the help of mounting brackets or mounting frames. 340 watt solar panel price depends on several factors: manufacturer, quality, warranties, efficiency of a module.

What is a N340 solar panel?

Featuring a 20.3 module efficiency and 340 watts per panel, N340 delivers an advanced renewable energy source with zero emissions for any home. A temperature coefficient rating of $-0.258\%/^{\circ}\text{C}$, one of the lowest in the world, helps generate greater electricity output on the hottest days. Higher power output and greater energy yields.
