

545W solar photovoltaic panels

Overview

What is a 545 watt solar panel?

The Longi 545Watt Solar Panel is a 545 watt monocrystalline module from the Longi brand, one of the leading manufacturers in the world photovoltaic industry. It consists of 144 cells (6×24).

What is a 545 W JA Solar panel?

This 545 W JA Solar solar panel also comes with a generous 12-year product warranty. JA-JAM72-D30-545MB design makes it ideal for residential and commercial rooftops. Strong 1.38" frame made from anodized aluminum increases durability and strength. The model can support a heavy snow load up to 5400 Pa.

What is a Longi 545W solar panel?

The Longi 545Watt Solar Panel is a 545W monocrystalline module with 144 cells (6×24) from the Longi brand. It is one of the leading manufacturers in the world photovoltaic industry.

What is a 540w half cut solar panel?

A 540W Half-Cut Solar Panel refers to a photovoltaic panel that has a power output of 540 watts and employs a "half-cut" cell design. In a half-cut design, the solar cells on the panel are divided into two halves, which are then wired in series.

How efficient are bifacial solar panels?

Not surprisingly, the efficiency of this module is quite high – 21.1%. And while conventional panels use only one side to absorb photons, bifacial modules employ both sides at the same time. Thanks to the technology, this model can be up to 30% more efficient. JA Solar paid as much attention to durability as they did to performance.
