

575 Photovoltaic Module Price

Overview

Why should you buy a 575W bifacial solar panel?

Lower Degradation Rate: Guarantees a longer lifespan with minimal power loss over time. Half-Cut Cells: More durable, resistant to cracking, and optimized for higher energy efficiency. Get the advanced 575W DCR TOPCon bifacial solar panel at the best price. Enjoy higher efficiency, superior durability, and a 27-year output warranty.

How long does a 575 W heliene solar panel last?

The performance will decline by no more than 2% during the first year and then by no more than 0.50% every year after that. After the 25 years are over, your modules will retain at least 86% of their original performance. This 575 W Heliene solar panel also comes with a substantial 15-year product warranty.

What is a dh144p8-575 solar cell?

DH144P8-575 is a model that uses a number of technologies to bring durability and performance to the next level. The Passivated Emitter Rear Contact (PERC) technology ensures excellent power output. This solar cell type employs an additional reflective layer to absorb more sunlight.
