

665W double glass module price

Overview

What has happened to mono module prices?

While prices for the mostly multi mainstream modules have stagnated, they have actually dropped somewhat over the previous month for mono (high-efficiency and all black). In contrast, multi modules are still plentiful, at least on the spot market.

What is the unsubsidized cost of a module?

Asian modules from leading manufacturers have already been easily available at 41 to 45 cents outside the EU and other regulated markets for some time. Not long ago, pv magazine raised the question of whether modules for projects could be produced at these prices without subsidies.

Are multi modules still available on the market?

In contrast, multi modules are still plentiful on the spot market. The current situation is not accurately reflected in module prices.

Nuuko PV Photovoltaic 132 Half Cells Double Glass Solar Power Panel Price 645W 655W 665W, Find Details and Price about Solar Power Solar Module from Nuuko PV Photovoltaic 132 Half ...

A large white mobile office unit with a corrugated metal roof and a 'Huijia' logo on the side. The unit is shown from a side profile, highlighting its length and the repeating pattern of the roof panels.

Bifacial Double Glass Monocrystalline 650W
655W 660W 665W 670W Solar Module, Find
Details and Price about Solar Module from

Bifacial Double Glass Monocrystalline 650W
