

ASEAN Solar Water Pump Inverter Manufacturer

Overview

Who is the world's leading solar pumping system manufacturer?

World's leading solar pumping system professional manufacturer, solar water conservancy system technology solution provider. Founded in 2001, Solartech is China's leading solar pump manufacturer. Solartech is also the world's first manufacturer of the whole series of solar pumping inverters, solar pumps, and solar pumping systems.

Who makes solar pumping inverters?

Solartech is also the world's first manufacturer of the whole series of solar pumping inverters, solar pumps, and solar pumping systems. Solar pumping system technology was adopted in global countries. The research center is located in Shenzhen International Graduate School of Tsinghua University.

What is a solar water pump inverter?

SI22 solar water pump inverter is cost-effective and economical, small and exquisite, palm-sized, greatly saving installation space and transportation costs. Solar pumping system converts solar energy directly into electric energy, and then drives motors to drive water pumps to pump water from deep wells, rivers, lakes and other water sources.

Who is the best solar water pump supplier in the USA?

RPS Solar pumps is a 100% USA company, they developed their first solar water in the year of 2012, and after 2 years test and develop, and finally launched into the market in 2014. Now there is 10 years past, their solar water pumps have been trusted by many customers, and now they are one of the best solar water pump supplier in the USA Market.

Where are solar water pumps made?

Their headquarter is located in Denmark. Since their first water pump was come out in 1945, they have been continued to innovate and now it is one of

the biggest water pump manufacturer in the world. They have a wide range water pump lines, solar water pump is just one of their water pump categories.

What is veichi SI series solar water pump inverter?

VEICHI SI series solar water pump inverter is a high-efficiency solar water pump controller which can make full use of solar energy to drive water pumps for agricultural irrigation, water supply system, fountains, ground water lowering and etc.
