

Australian Energy Storage Equipment Procurement

Overview

When will a battery energy storage system start in South Australia?

The 250MW/500MWh battery energy storage system (BESS), supplied by Trina Storage, is scheduled to commence commercial operations in February 2027. Once operation, it will be one of the largest energy storage projects in South Australia, marking a significant milestone in the region's renewable energy transition.

Why is NSW opening a new energy storage tender?

NSW has opened the largest energy storage tender in NSW history, seeking new long-duration storage projects to boost electricity reliability and keep the lights on in NSW. These projects will help ensure a steady and reliable supply of energy around the clock.

Can long-duration storage projects be supported by the NSW electricity infrastructure roadmap?

Long-duration storage projects can bid for financial support under the new NSW Electricity Infrastructure Roadmap Tender 5 which is now open. This tender offers support for up to 1 gigawatt of projects, which can each release energy into the NSW grid for at least 8 hours.

Will energy storage transform Australia's energy generation mix?

Following the recent unprecedented renewable energy boom, 2019 is set to focus on how renewables can transform Australia's energy generation mix. This is not being driven by ideology, but by economics. Energy storage will play an important role in this transformation.

When is the Energy Storage Summit Australia?

Energy-Storage.news' publisher Solar Media will host the 1st Energy Storage Summit Australia, on 21-22 May 2024 in Sydney, NSW. Featuring a packed programme of panels, presentations and fireside chats from industry leaders

focusing on accelerating the market for energy storage across the country. For more information, go to the website.

What is Australia's 32 GW capacity investment scheme?

The Australian federal government's 32 GW Capacity Investment Scheme (CIS) is already bearing fruit, with a competitive tender seeking 600 MW of energy storage capacity in Victoria and South Australia attracting 19,000 MW of project proposals. From pv magazine Australia
