

Australian household photovoltaic combiner box

Overview

What is a PV combiner box?

Our PV Combiner Box is a perfect device designed to reduce the connection line between PV modules and inverters, facilitate maintenance and improve reliability. Equipped with high-voltage lightning arresters, 15A DC fuses, and circuit breakers to play a role in circuit protection and lightning protection.

Where can I buy electrical supplies in Australia?

Tradezone is Australia's Largest Online Electrical Wholesaler. We stock all major suppliers including Clipsal, Hager, NHP at Unbeatable Trade Prices with FAST Delivery. Live stock availability on 13,000+ products. Cable, Solar, Powerpoints, Switches, LED Lighting, Air Conditioning and much more.

Why should you choose a combiner box?

The additional weather protection roof for outdoor use significantly increases the service life of the combiner box. The unique PCB design allows quick and easy integration of additional functions. For example, a switch can be integrated or a second MPPT can be connected directly to the first PCB.

What is a string inverter protection box?

The product line is designed for the protection of string inverters with 1 to 12 MPP trackers and so covers all common inverters available on the market. The fused version is optional for protection of the panels from reverse current. The PCB without additional fuses is slimmer. All boxes are protecting your panels or inverters from surges.
