

Base station power supply can be used for charging

Base station power supply can be used for charging

[what kind of power supplies do you guys use for base station](#)

13.8v and 30a is fairly standard for a shack. That radio should run from 11.73v to 15.87v but at 12v and 5 amps, you'll probably put too much demand on that little power supply. ...

[Environmentally-Friendly, Disaster-Resistant Green Base ...](#)

Another feature of the green base station concept is its ability to create value during ordinary times as well, by controlling the supply of power from appropriate power sources according to ...

[12 Volt Lead-Acid Battery + Trickle Charger to Power Base-Station](#)

You could absolutely use the battery tender to charge the battery when the radio is off, and just disconnect it when you want to use the radio. Periodically check the battery/tender.

[Lost my base station's power adapter while traveling. What are ...](#)

Currently have an index with two 2.0 basestations, but lost the little attachment that connects one of the base station power adapters

to a wall socket. The little plastic removable piece with the ...
