

Belgian urban photovoltaic panel manufacturer

Overview

Located in Baillonville, in the heart of Wallonia, Belga Solar designs and produces high-performance, reliable and durable photovoltaic panels, designed to meet the needs of both private individuals and professional installers. Who makes solar panels in Belgium?

By offering comprehensive services from design to installation, Soltech ensures that its clients benefit from the full potential of solar energy, making it a standout manufacturer in Belgium. Energys, located in the heart of Flanders, is renowned for its innovative approach to solar panel technology.

How will Belgium's solar panel industry grow?

Belgium's solar panel industry is poised for continued growth, driven by innovative manufacturers and supportive supply chain centers. By leveraging strategic locations like Antwerp and Ghent, companies can optimize their operations and reach wider markets.

Where are Volta solar panels made?

Volta Solar's manufacturing facility in Antwerp is equipped with state-of-the-art technology, enabling the production of solar panels that meet the highest standards of quality and performance. The company's focus on customer satisfaction and technical innovation has solidified its position as a top manufacturer.

Where are photovoltaic panels made?

The photovoltaic solution manufactured in Belgium for a guarantee of quality. Our panel is made using the latest technology with 10BB monocrystalline cells to achieve one of the best power output ratings on the European market (>400Wp for an optimal and manageable format).

How many photovoltaic panels does evocells make?

Judge for yourself: In 2012, Evocells manufactured 2,000 photovoltaic panels,

16,000 in 2018, and more than 30,000 premium-quality photovoltaic panels will leave our new Baillonville plant in 2022. In 2014, Evocells had a staff of three. Today, a multidisciplinary team of more than 25 people operates in our factory in Marche-En-Famenne.
