

Brazilian new photovoltaic panel manufacturer

Overview

Sengi Solar, a PV module manufacturer, said in early September that it plans to invest BRL 440 million (\$85 million) to set up two solar panel factories in Brazil. The two sites will have an annual production capacity of around 1 GW of modules. Where will solar panels be made in Brazil?

Sengi Solar, a PV module manufacturer, said in early September that it plans to invest BRL 440 million (\$85 million) to set up two solar panel factories in Brazil. The two sites will have an annual production capacity of around 1 GW of modules. The first unit, in Cascavel (Paraná), is already in operation.

Is Sengi Solar a 100% Brazilian solar manufacturer?

The PV manufacturer recently spoke to pv magazine about the incentives that led to the decision, future technological developments, and its path to 100% Brazilian solar manufacturing. Sengi Solar, a PV module manufacturer, said in early September that it plans to invest BRL 440 million (\$85 million) to set up two solar panel factories in Brazil.

What certifications are required for photovoltaic systems in Brazil?

One of the key certifications in Brazil is the INMETRO Certification, which is compulsory for photovoltaic systems. INMETRO (National Institute of Metrology, Quality and Technology) is an agency of the Brazilian federal government responsible for metrological services, quality, and technology.

When will a new factory open in Brazil?

The first unit, in Cascavel (Paraná), is already in operation. The second unit, in Ipojuca (Pernambuco), is scheduled to start operations in the first half of 2023. The Brazilian company told pv magazine that it plans to open a third factory in 2024, to reach of 1.5 GW of annual production.
