

Cambodia s new outdoor power supply

Overview

How will Cambodia's energy projects improve energy security?

These projects will generate a combined capacity of 3,950 MW, while the energy storage facilities will provide an additional 2,000 MW. With a total investment of \$5.79 billion, the projects aim to ensure a stable and affordable power supply, enhancing Cambodia's energy security by reducing reliance on energy imports.

How much money does Cambodia need to build a power plant?

Cambodia requires an estimated \$9 billion investment to develop new power plants and expand the national grid. Between 2022 and 2025, \$2.5 billion has already been approved for key energy projects. Opportunities for investment include:

Why is Cambodia investing \$579 billion in energy projects?

With a total investment of \$5.79 billion, the projects aim to ensure a stable and affordable power supply, enhancing Cambodia's energy security by reducing reliance on energy imports. The initiative also supports Cambodia's goal of achieving 70% clean energy by 2030, contributing to global greenhouse gas reduction targets.

How will the Cambodian electricity project help Cambodians?

The project will support the Royal Government of Cambodia in delivering high-quality, safe, and affordable electricity to all Cambodians through stimulating private investment in clean and renewable energy for remote locations without electricity grids.

How is Cambodia transforming its energy sector?

Cambodia is undergoing a significant transformation in its energy sector, balancing economic growth with sustainability. The government is implementing energy efficiency policies, expanding renewable energy

sources, and modernizing infrastructure to reduce electricity costs and improve accessibility.

Can US companies use solar energy in Cambodia?

Opportunities exist for power generation and transmission equipment. The Cambodian government encourages usage of solar energy technologies, but U.S. companies are advised to review new regulations that might impact their business practices. Ministry of Mines and Energy
