

Cape Verde outdoor power supply installation direction

Overview

Do I need a power adapter in Cape Verde?

However, if your devices use a different plug type or are not compatible with the voltage in Cape Verde, you will need a power adapter and/or a voltage converter/transformer. The standard voltage in Cape Verde is 230 V, and the standard frequency is 50 Hz.

What is the voltage in Cape Verde?

Just like the rest of Europe, the voltage in Cape Verde is 230 volts and the frequency is 50 Hz. Cape Verde has standardized on type F sockets and plugs. Type C and type E plugs can also be used thanks to their compatibility with type F sockets.

What type of plugs are used in Cape Verde?

In Cape Verde, there are two main types of power plugs and outlets: Type C and Type F. Type C: Type C plugs have two round prongs on either side of the plug, commonly known as Euro plugs. Mostly used in Europe, South America, and Africa. Type C outlets can be fit with either Type E or Type F plugs.

Are plug sockets allowed in Cape Verde?

Typically, type C plug sockets are not allowed to be installed in Cape Verde: these outlets are not earthed and are therefore considered dangerous. Only type F power points are permitted because they are grounded and therefore significantly safer.

What type of electrical outlets are used in Cape Verde?

In Cape Verde electrical outlets and plugs of types C & F are used (see images). You can check if these are the same as in your country with the tool at the top of this page. The voltage used in Cape Verde is 220V with a frequency of 50Hz.

What electrical sockets are used in Cape Verde?

The electrical sockets used in Cape Verde are type C and type F. These are 2 variants of the same socket - one grounded (with an earth pin) and the other ungrounded. You will therefore need a UK 3 pin to type C/F adaptor in order to plug in your appliances. The mains voltage in Cape Verde is 230 V which is compatible with all UK appliances.
