Overview

What is a lithium-ion battery charging cabinet?

The Justrite Lithium-Ion Battery Charging Cabinet is the ultimate solution for safely charging and storing your lithium-ion batteries. Each charging station locker has multiple layers of advanced shielding to help reduce the risk of battery fires and thermal runaway.

What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels.

Are battery storage cabinets safe?

Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment. CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them.

What is a Justrite battery storage cabinet?

Every Justrite battery storage cabinet is made from strong 18-gauge steel. It has double-walled sides, top, and bottom with a 1.5-inch air gap between the walls. The manual-close doors have baffled vents and a unique flame arrester pattern. They are supported by continuous piano hinges for a secure and reliable closure.

Why do we need a backup battery cabinet?

Through cutting-edge research and innovation, advanced engineered power products for backup battery cabinets have become essential to our energy future. When the power goes out, battery backups ensure that the Internet,

cloud-based data, financial and health records stay accessible.
