

# **Congo Brazzaville Energy Storage Project Construction Site**

## Overview

---

What is Congo Brazzaville?

Congo Brazzaville, also known as the Republic of Congo or the 'Other Congo', is a country located near Kinshasa. It might not be as illustrious as the Democratic Republic of Congo, but it has a lot to offer and makes for a perfect follow-up to our DRC Tour.

What will a rehabilitation project do for Djoué - Republic of Congo?

This important rehabilitation project will give this strategic power plant a new lease on life and will supply the Congolese population with a clean source of renewable energy. Djoué - Republic of Congo: ANDRITZ HYDRO will modernize the water power plant.

Why does Brazzaville have a water intake?

The water intake is built inside a gravity dam to retain water for Brazzaville's electricity demand. Since its construction in the 1950's, there have been many incidents. The most important one occurred in April 2007, when the power plant was flooded up to the control room.
