

**Currently recognized as the
best large-capacity outdoor
power supply**

Overview

For RV use or outdoor live broadcasting, a 2500W power supply (2500Wh capacity, 1000W peak power) is the best choice. It includes PD100W fast charging to efficiently charge laptops, cameras, and communication equipment, while offering enough capacity to run live-streaming setups. What is the best portable power station?

If power and battery capacity are what you are after, the Delta Pro is the ultimate large-form power station. If you are searching for a compact portable power station for on-the-go activities, the Jackery Explorer 300 is our recommendation. This unit is ideal for charging phones and laptops or running small appliances like lights and fans.

What should I consider when buying a portable power station?

The most important thing to consider when shopping for a portable power station is the amount of power and battery capacity you need. The price range for portable power stations can range from a fairly inexpensive product to a large-sized investment.

Do all power stations provide a power source?

While all power stations are intended to provide a power source, each model differs in their overall design and included features. Some models have an intuitive mobile app to fully control your power station wirelessly. Others may offer expandable battery capacity, and some are advertised as being used as an uninterruptible power supply.

How important is a good display when buying a power station?

While maybe not the first consideration when shopping for a power station, a good display becomes an important factor when the power goes out. The EcoFlow Delta Pro landed at the top of our usability metric.

Which power station has the best mobility?

The Jackery 300 and Anker 521 ran away with the best mobility scores, thanks to their small form and small battery size. However, for larger power stations, it was hard to ignore the impressive weight-to-power output ratio of the Anker Solix C1000.

Which Jackery power station should I buy?

And we measured other things you'll want to know, like how long they take to recharge, their weight, and how easy they are to use. The Jackery 2000 Plus is the best power station for those who need ample power.
