

Czech Economic Development Battery Cabinet Project

Overview

Should a battery cell factory be built in the Czech Republic?

Electromobility is a reality, and it is very important that one or several battery cell factories be built in the Czech Republic. Every factory can provide work for more than two thousand people directly at the plant and thousands more jobs will be created in downstream sectors.

Where is the largest battery in the Czech Republic?

We are currently finalising the construction of the largest battery in the Czech Republic in Ostrava. Europe's energy sector is changing dynamically, but secure energy supply and grid stability remain fundamental.

What is the largest storage system in the Czech Republic?

In Ostrava, you are building the largest storage system – the largest battery, in the Czech Republic. What will it be used for, and what can it mean for companies?

We are currently finalising the construction of the largest battery in the Czech Republic in Ostrava.

How do battery companies contribute to sustainability & ecology?

The companies also contribute to sustainability and ecology as the battery promotes the use of renewable energy sources. In addition, they can manage their electricity consumption more efficiently and thus reduce costs. Thank you for the interview.
