

Czech Investment Group s solar panels

Overview

Will the Czech Republic invest in solar power?

The Czech Republic will have hard time looking for someone willing to invest in the sector," the Czech Solar Association Chairman Jan Krcmar said. Majority state-owned electricity producer CEZ (CEZP.PR) plans to invest \$4.15 billion - four times its 2020 profit - into building 6 gigawatt of solar power capacity by 2030.

How much solar power does the Czech Republic have in 2021?

In 2021, the Czech Republic will have a solar installed capacity of around 2119 MW, with a renewable energy capacity of around 4415 MW. Czech Republic's renewable energy shares around 21.1% of the total electricity generation in the country.

How many photovoltaic power plants does Jufa investment group own?

JUFA Investment Group currently owns 47 photovoltaic power plants with a total capacity of 127 MW. As an investment company, JUFA Investment Group has at its disposal detailed knowledge of the legislation governing the operation of renewable energy sources in the Czech Republic.

How much energy does the Czech Republic need in 2025?

Moreover, the Czech Republic's demand for electricity is expected to have a demand of around 83 terra watt-hours (TWh) by 2025, and with its target to reduce carbon emission by having an alternative source of energy, renewable sources are likely to grow during the period.
