

Double-glass component equipment

Overview

What are the types of double glazing equipment?

The common Double Glazing Equipment are including Insulating Glass Processing Line, and Auxiliary Equipments, which is for cutting and bending Aluminum Spacer, filling Desiccant, Butyl Coating, and second time Sealing. The Manual type machines are for small output quantities or special processing demands customers.

What is insulating glass unit machinery?

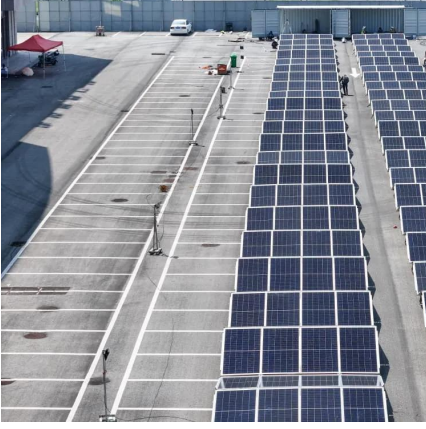

Insulated Glass Unit Machinery produces insulating glass. The common Double Glazing Equipment are including Insulating Glass Processing Line, and Auxiliary Equipments, which is for cutting and bending Aluminum Spacer, filling Desiccant, Butyl Coating, and second time Sealing.

Who makes insulated glass processing machinery?

As a glass machinery manufacturer, we devote ourselves to products quality. Our advanced technology, high quality products and reliable service bring insulated glass processors much convenience. Hanjiang specializes the manufacturing of IG-insulated glass processing machinery.
