

Ecuador energy storage projects under construction

Overview

What type of energy does Ecuador use?

Ecuador's renewable energy is comprised of hydro power (5,419 MW), biomass (1550 MW), wind (71 MW), photovoltaic (29 MW), and biogas (11 MW). Hydroelectric power plants are in three regions: coastal (2 provinces), Andes (9 provinces), and Amazon (4 provinces).

What is Ecuador's nuclear energy plan?

Ecuador's nuclear energy plan contemplates a 300 MW small modular reactor in the medium term and a 1 GW reactor in the long term. In May 2025, Ecuador became a member of the International Atomic Energy Agency (IAEA). The next step is to enact the legal framework to oversee and regulate nuclear energy.

How did Ecuador's power outages affect economic activity in 2024?

During a prolonged dry season in 2024, Ecuador's over-reliance on hydropower (78 percent of total generation) resulted in daily blackouts of up to 14 hours, hurting economic activity. According to Ecuador's Central Bank, power outages caused economic losses of about \$2 billion in 2024.

Can Ecuador add nuclear energy to its energy mix?

Ecuador is also exploring opportunities to add nuclear energy to its energy mix, though it has not allocated budgetary resources to this sector. Ecuador's nuclear energy plan contemplates a 300 MW small modular reactor in the medium term and a 1 GW reactor in the long term.

Where does Ecuador's electricity come from?

Ecuador's state-owned electricity company, CELEC EP, imports electricity from neighboring Colombia. CELEC is also increasing diesel purchases from Petroecuador to power its thermal electric power plants. Ecuador had a peak demand of 5,110 MW in May 2025, and according to CENACE, electricity

demand grows by 360 MW every year.

How much electricity does Ecuador need?

Ecuador had a peak demand of 5,110 MW in May 2025, and according to CENACE, electricity demand grows by 360 MW every year. Ecuador's energy shortage could result in a recurrence of power outages, particularly in the dry season of September through December. Ecuador has added minimal generation in recent years.

Ecuador energy storage projects under construction

Spain's Cox wins over USD 700m in concessions for solar, storage in Ecuador

Spanish utility Cox Group (BME:COXG) has secured concessions in Ecuador to develop eight renewable energy and electric infrastructure projects representing an investment ...

[Latest Battery Energy Storage System \(BESS\) Projects in ...](#)

Search all the latest and upcoming battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Ecuador with our comprehensive online ...

[Latest Battery Energy Storage System \(BESS\) Projects in Ecuador ...](#)

Search all the latest and upcoming battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Ecuador with our comprehensive online ...

[Ecuador Guayaquil Energy Storage Platform Construction Plan ...](#)

SunContainer Innovations - Summary: Discover how the Ecuador Guayaquil Energy Storage Platform Construction Plan addresses energy

stability challenges through cutting-edge battery
...

[Namkoo Delivers Off-Grid Home Energy Storage Project in Ecuador.](#)

Namkoo has successfully completed a 10kW + 20kWh off-grid household energy storage system in Ecuador, designed to provide reliable, self-sustained power in response to the country's ...

[Ecuador's Electricity Crisis: Causes, Consequences, and Solutions](#)

Ecuador is facing a severe electricity crisis that affects households, businesses, and the overall economy. Learn about the underlying causes, the wide-reaching consequences, and the ...

[Spearmint Energy Secures Over \\$250 Million Financing for 400 ...](#)

Both projects will also utilize the state-of-the-art PowerTitan 2.0 energy storage platform provided by Sungrow Power Supply Co., Ltd. ("Sungrow"), a leading global inverter and energy storage

Current Status and Development Potential of Household Energy Storage ...

While the current installed capacity of household energy storage in Ecuador is low, the country's abundant solar resources, rising energy independence demands, and potential ...
