

Energy 15GW photovoltaic module project

Energy 15GW photovoltaic module project

15.2 billion! Risen Energy plans to build a 15GW battery and module project

The project is constructed in two phases, with a total development and construction period of 30 months. In order to ensure the smooth implementation of this project, Risen Energy will also ...

Phase I of Risen Energy's 15GW High-Efficiency Solar Cell and 15GW

Spanning 165 acres, the project will be constructed in two phases and completed in 5 years. Upon completion, the project will produce 15GW of high-efficiency solar cells and 15GW of modules, ...

15.2 billion! Risen Energy plans to build a 15GW battery and module project

After the construction of this project is completed, it will become the photovoltaic enterprise with the second largest heterojunction module production capacity in the world.
