

Energy storage battery price changes

Overview

How much does a battery storage system cost?

Around the beginning of this year, BloombergNEF (BNEF) released its annual Battery Storage System Cost Survey, which found that global average turnkey energy storage system prices had fallen 40% from 2023 numbers to US\$165/kWh in 2024.

Why are battery prices so low in China?

Companies in China faced fierce competition this year. These conditions resulted in falling battery prices and lower battery margins, forcing many battery manufacturers to enter new markets, including energy storage, while also eyeing overseas markets willing to pay more for batteries. The industry has also benefitted from low raw material prices.

What happened to battery prices in 2024?

New York, December 10, 2024 – Battery prices saw their biggest annual drop since 2017. Lithium-ion battery pack prices dropped 20% from 2023 to a record low of \$115 per kilowatt-hour, according to analysis by research provider BloombergNEF (BNEF).

Will low Lithium prices affect battery prices in 2025?

In 2025 these conditions will persist and aided by low lithium prices, will continue to put downward pressure on battery prices. In China, battery prices already dipped below \$100 per kWh in 2024. Whether we see these low prices around the world in 2025 will depend on trade dynamics for major auto markets, including tariffs.

How much do battery electric vehicles cost?

The figures represent an average across multiple battery end-uses, including different types of electric vehicles, buses and stationary storage projects. Prices for battery electric vehicles (BEVs) came in at \$97/kWh, crossing below

the \$100/kWh threshold for the first time.

What will EV battery prices look like in 2019?

Policy experts and clean tech executives share four predictions for the year ahead: EV battery prices dropping below cost parity with gas-powered cars, increased demand for grid-scale battery storage, carbon dioxide removal hitting scale, and permitting reform becoming a priority of Congress and the federal government.
