

Energy storage cabinet battery warranty

Overview

A standard battery warranty should come with at least 10 years of protection, though it can be shorter depending on how often you charge and drain your battery. Battery warranties typically won't reimburse for labor costs associated with installing new equipment or shipping fees for new equipment. Does a battery storage system need a warranty?

A battery storage system is a decades-long investment that a warranty can help protect. The less power your system stores, the more your home may need to draw from the utility company, which eats into your savings. A good warranty ensures that if your battery experiences a problem, that it will be replaced and your investment will be protected.

Which battery storage system has the strongest warranty?

Comparisons should focus on product warranty terms, end of warranty capacity, labor warranty terms, and transferability. Based on our ranking system, SolaX Power has the strongest overall warranty. Why are battery warranties important?

Does a battery Installer have a warranty?

Most battery manufacturers leave workmanship (labor) warranties to the installer. Still, like labor and shipping costs, some companies offer an extra safeguard by tacking on their own workmanship warranty coverage. When applicable, it's typically only an option if you work with specific installers in a manufacturer's certified network.

Does a warranty cover reinstalling equipment?

While the warranty may cover replacement products or parts, that doesn't necessarily mean the manufacturer will cover the labor and shipping costs required to reinstall that equipment. Most manufacturers do not reimburse for the labor associated with replacements or repairs of their products.
