

Energy storage equipment costs in Turkey

Overview

Is Turkey establishing a market for large-scale energy storage?

The latest announcement is a big step towards establishing a market for large-scale energy storage in the country, Energy-Storage.news heard from Korkut Öztürkmen, board member at Aksa Energy, one of Turkey's largest independent power producers (IPPs).

Should energy companies be allowed to invest in energy storage?

The pre-licensing comes after key regulatory changes including an EMRA ruling in 2021 that energy companies should be allowed to invest in energy storage. Last year, energy laws were adapted to allow power producers to develop new renewables projects on the congested Turkish grid, if paired with energy storage.

Can a roof-top solar energy producer sell excess electricity?

Roof-top solar energy producers can sell their excess electricity to the grid at a maximum limit of 5 MW if they are production plant owners, and 10 kW if they are homeowners. Solar and wind energy investments receive customs duty exemptions, corporate tax deduction, and other incentives.
