

Full Oxygen Solar Panel Cost

Overview

As of 2025, the average cost of residential solar panels in the U.S. is between \$15,000 and \$25,000 before incentives. This typically translates to about \$2.50 to \$3.50 per watt of installed capacity (more on price per watt below). How much does solar cost?

Fortunately, EnergySage can help you determine how much solar will cost you, and how you can lower that price to start saving sooner. The average cost of a 12 kW solar panel installation on EnergySage is \$20,754 after the federal tax credit. You'll probably save anywhere from \$34,000-\$120,000 over 25 years by going solar.

How much does solar panel installation cost?

On the high end, solar panel installation can cost over \$40,000. On the low end, it only costs a few thousand. It all depends. Additionally, none of these prices account for incentives like the federal investment tax credit (ITC), which can make your solar system up to 30% more affordable.

How much does a 12 kW solar panel cost?

The average cost of a 12 kW solar panel installation on EnergySage is \$20,754 after the federal tax credit. You'll probably save anywhere from \$34,000-\$120,000 over 25 years by going solar. Solar panels are just 12% of the total cost of a solar panel installation.

How much does a residential solar system cost?

Using these numbers, an average-sized 8-kilowatt residential solar system would cost between \$21,900 – \$26,400. Regional pricing differences, the system size, local installation costs, inclusion of home battery backup, and local incentives are other factors which affect the final cost.

How do I calculate the cost of solar?

First, you can use an online solar cost calculator, like this one powered by

solar.com. Simply punch in your address and your average monthly electricity bill, and the calculator will give you a side-by-side comparison of the cost of solar versus paying for utility electricity.

How much does it cost to clean solar panels?

Solar panels require very little upkeep. If you're able to clean the solar panels yourself, the only maintenance cost will be the water used to hose them down. If you hire a professional to clean your solar panels, it will cost around \$100 to \$350, on average.
