

Georgia 2025 Energy Storage Project

Overview

Georgia Power has unveiled ambitious plans to invest significantly in new generation capacity and battery energy storage systems (BESS) across the state—particularly in Floyd and Bartow counties—to meet rising demand and transition toward cleaner, more reliable energy sources.

Georgia 2025 Energy Storage Project

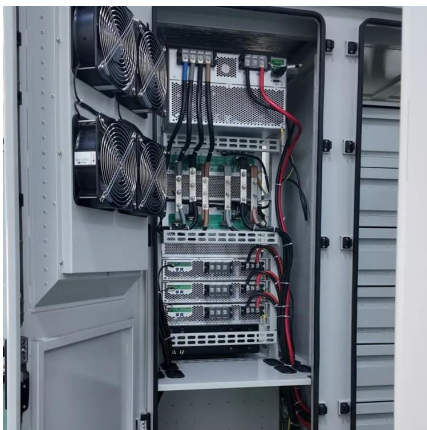

[Latest Ongoing Thermal Energy Storage \(TES\) Projects in Georgia \(2025\)](#)

Search all the ongoing (work-in-progress) thermal energy storage (TES) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Georgia with our comprehensive online ...

[Georgia Power's 2025 IRP: Further shift towards battery storage](#)

US utility Georgia Power has filed its 2025 update to its Integrated Resource Plan (IRP) with the first update since 2023 showing further acceleration in the utility's adoption of ...

[Solar, battery storage to lead new U.S. generating capacity ...](#)

Battery storage. In 2025, capacity growth from battery storage could set a record as we expect 18.2 GW of utility-scale battery storage to be added to the grid. U.S. battery storage already ...
