

# **Georgia Customized Photovoltaic Energy Storage System**

## Overview

---

Are solar panels a good investment in Georgia?

Contact us now to start saving money on your power needs with a system more reliable than your electric utility can provide. Solar panels have become increasingly popular in the state of Georgia. In recent years, solar energy installation has risen steadily in response to its multiple benefits for both residential homes and commercial businesses.

Does Georgia Power offer solar?

From home installation and our buy back program, to non-installation options, our goal is to make solar an option for every Georgia Power customer. Learn more about our behind-the-meter solar programs, including the new Renewable and Nonrenewable Resources (RNR) program, and how to interconnect your system.

Should you go solar in Georgia?

For those looking for an efficient and cost-effective way to reduce their carbon footprints, going solar in Georgia is a great choice. From the moment you contact Alternative Energy Southeast, Inc., we will be a one-stop shop for your solar panel installation and energy storage needs from start to spectacular finish.

Does Georgia Power Company offer a solar extension program?

The Public Service Commission Order pertaining to Dockets 4822, 16573, and 19279 states that Georgia Power Company is to provide existing solar participants the option to extend the term of their current Distributed or Utility Scale generation for up to 35 years. Please select from the following options for more information surrounding your program.
