

Georgia solar energy storage cabinet electric control panel communication power supply

Overview

What is GA Solar?

GA Solar is a group comprised of leading experts in solar manufacturing and installation, academia, finance, and the law. They are leading the effort in Georgia to promote the economic and environmental benefits of solar energy through education, advocacy, and industry support. Join their campaign to urge the Public Service Commission to Scrap the Solar Cap!.

How does GA Solar help Georgia's energy consumers?

GA Solar helps advocate for solar power in Georgia on behalf of energy consumers. By informing local and state leaders about policies that make solar benefits accessible, GA Solar supports investment and local economic growth, keeping Georgia's economy strong.

Where is Georgia's largest solar power plant located?

The largest, at 128 MW of capacity, is located at Robins Air Force Base in Warner Robins, Georgia. Other facilities add carbon-free energy to the grid and supply renewable energy in support of our Community Solar program. 1. North Georgia.

Do all solar facilities belong to Georgia Power?

Not all solar facilities you may come across belong to Georgia Power. We have constructed and are operating 16 solar farms and additional demo facilities across the state of Georgia, many in partnership with military installations. The largest, at 128 MW of capacity, is located at Robins Air Force Base in Warner Robins, Georgia.

Does Georgia have solar?

Want Solar?

Sunlight is one of Georgia's most abundant resources with an average of 218

sunny days per year. More than 3,000 MW of solar resources, or approximately 12% of our total capacity*, generate significant carbon-free energy for Georgians during sunny, daylight hours.

Is Georgia a good place to install solar panels?

Georgia has consistently been in the SEIA Top 10 for solar photovoltaic installations for the past 10 years, and our state has one of the largest voluntary solar portfolios in the country.
