

German portable energy storage product manufacturer

Overview

Can German households buy or sell excess electricity?

German households can also buy or sell excess electricity on the company's new trading platform. Founded in Germany in 2009, SENEK develops and produces smart power storage systems and provides storage-based energy storage solutions to private households and small and medium-sized enterprises.

Why should you choose tesvolt energy storage systems?

TESVOLT energy storage systems are the economical choice for the most demanding applications. Made in Germany, in Europe's first ever gigafactory for stationary battery storage systems, in Lutherstadt Wittenberg. Quality, performance, and optimum interplay between the individual components set our storage systems apart from the rest.

What is Tesla's Energy Storage business?

In Germany, Tesla's energy storage business mainly focuses on the two products Megapack and Powerwall. Megapack is a large energy storage battery; Powerwall is a household energy storage battery that can be used with solar panels to store excess electricity generated during the day and use it at night or during power outages.

Should large-scale energy storage systems be connected to the medium- and high-voltage grid?

Distribution grid operators are receiving a large number of requests to connect large-scale energy storage systems to the medium- and high-voltage grid. This has been published by Bayernwerk Netz, Bavaria's largest distribution system operator, and Mitnetz Strom.
