

Greek Electricity Company Energy Storage Project

Overview

Greece recently announced a plan to fast-track standalone storage projects, pushing toward its 2030 goal of 4.3GW of battery storage. At EuroEnergy, we recognize BESS technology as a key enabler of a resilient power system.

Greek Electricity Company Energy Storage Project

[The time for electricity storage in Greece has arrived](#)

Despite significant investment interest and the approximately 160 production licenses for projects with guaranteed capacity over 500 MW and renewable energy capacity greater than 1100 MW, ...
