

Grenada Custom Home Solar Systems

Overview

Does Grenada have solar power?

Solar photovoltaics (PV) have high potential on Grenada because the country's global horizontal irradiation exceeds 5 kWh/square meters per day. A 2- to 4-MW PV installation is planned, but no utility-scale solar plants are currently in operation.

How much does solar cost in Grenada?

According to data from 2014, the costs of utility-scale solar in Grenada are estimated to be between \$0.21/kWh and \$0.44/kWh; wind costs are estimated to be between \$0.05/kWh and \$0.20/kWh.

Why should you invest in solar in Grenada?

Providing solar solutions throughout Grenada at all levels. Contact us to see what we can do for you. Solar farms are the most direct way to reduce carbon emissions that contribute to global warming. As of now, Solar PV plants offer great investment opportunities for individuals and companies. Solar farms receive a great return on investment.
