

How much do photovoltaic solar panels cost in Ireland

Overview

Solar PV panel costs range between €4,600 – €8,700 in Ireland. This includes installation and materials such as roof mounts & inverters. There is a grant of up to €1,800 available for installing solar panels on your home. Solar panels take an average of 6-7 years to pay for themselves. How much does a solar PV system cost in Ireland?

A solar PV system costs between €4,600 – €8,700 in Ireland in 2025 with the SEAI grant. The exact price will depend on the number and type of solar panels used. You can expect the peak solar output of your solar PV system to be between 1.76kWp to 7.04kWp.

How much does a commercial solar panel installation cost in Ireland?

The cost of commercial PV panel installations depends on the size and complexity of the project. The price per watt may decrease for larger systems due to economies of scale. Commercial solar PV installations in Ireland cost between €15,000 and €200,000 or more, depending on the project's size and requirements.

Are photovoltaic panels a good investment in Ireland?

Photovoltaic panels can help homeowners and businesses save money on electricity bills by generating clean, renewable energy. The ROI for renewable energy in Ireland depends on the size and cost of the system and the amount of power generated and used. Here's a breakdown of potential savings and earnings for different system sizes:.

How much does a solar grant cost in Ireland?

The grant can reduce the cost of solar panels in Ireland by 25% or even more, and so it's a gamechanger for a typical family looking to go solar. In 2024, the maximum solar grant amount is €1,800, but that will be going down by €300 to €1,500 at the start of 2025. Find out more in our Irish solar grants guide.

How much energy does a solar system use in Ireland?

Well, the average Irish household uses around 4,200 kWh of electricity per year. If you really want to get value out of your new solar system, you should aim to cover at least 75% of your energy consumption – meaning that average home would need 8–10 panels, most likely with a 4kW system or higher.

How much does solar PV installation cost?

Meanwhile, commercial solar panel installation for SMEs might cost around €18,000, or more. Here's what you might pay to install Solar PV: depending on your type of home, the number of panels you opt for and the system size you choose (excluding grants). On the higher end of the range are families who seek greater energy independence.
