

How much does a solar base station cost in Bhutan

Overview

Can solar power grow in Bhutan?

“We did the studies on renewable energy management master planning in 2016 and the reports say Bhutan has a capacity for 12 Giga watts of solar energy and 760 MW of wind so we have a lot to tap as there is a lot of opportunity for solar energy solar power to grow in Bhutan. There is a lot of potential and I think this is the right step.”.

What is Bhutan's first solar power project?

The first phase of Bhutan's first utility-scale solar power project at Sephu in Wangdue Phodrang is set for completion by March next year. A utility-scale solar facility generates solar power and feeds it into the grid. The 17.38-megawatt solar farm is expected to generate around 24 million units of energy annually, once operational.

Who is the chief guest of Bhutan Solar Initiative project (BSIP)?

The Prime Minister Dasho Dr Lotay Tshering was the Chief Guest. Bhutan Solar Initiative Project (BSIP) set up under Royal Command has implemented two Solar PV Projects in Thimphu. 250kW Rooftop Centenary Farmers Market (CMF) and 500kW Ground mounted at Dechencholing.
