

How much is the price of energy storage and new energy in Poland

Overview

Is energy storage a good investment in Poland?

In Poland, interest in energy storage investment has been evident for some time. Last year's main auction of the power market, with capacity delivery for 2029, further bumped up the capacity of storage projects.

What happened to energy storage in Poland?

The Energy Regulatory Office said in a report last year on electricity storage in Poland that, as a result of the main power market auctions for 2021-2028 and the supplementary auctions for 2012-2025, contracts for energy storage with a total capacity of 9.5 GW were concluded.

Is Poland a key player in Europe's energy storage sector?

Poland is emerging as a significant player in Europe's energy storage sector. The recent capacity market auctions in December 2024 highlighted a substantial shift towards BESS, with approximately 2.5 GW secured by new generation capacity market units, predominantly Li-ion energy storage projects.

Should US companies offer battery energy storage systems in Poland?

U.S. Commercial Service recommends that U.S. companies offering battery energy storage systems take a hard look at the Polish market because there will be opportunities for U.S. companies to propose their solutions for many years to come. For more information, please contact Commercial Service Poland at office.warsaw@trade.gov.

How does a supplier buy electricity in Poland?

In a competitive market, suppliers buy electricity on the Polish Power Exchange (TGE) or via bilateral contracts and then sell it to consumers. For most customers, the energy price portion has traditionally been a fixed rate per kWh (often set in a supplier's tariff or contract).

How much tax is added to Poland's energy bill?

Overall, taxes can add roughly 20–25% on top of the pretax price (23% VAT plus the negligible excise). Regulatory Charges and Levies: In addition to network tariffs, Poland's bills include a few government-mandated surcharges to support energy policy objectives.
