

Hungarian Energy Storage Power Station Settlement Rules

Overview

Will Hungary support the installation of new electricity storage facilities?

Hungary notified to the Commission, under the Temporary Crisis and Transition Framework, a Hungarian scheme to support the installation of at least 800 MW/1600 MWh of new electricity storage facilities.

Will Hungarian electricity storage facilities support a net-zero economy?

The European Commission has approved a €1.1 billion (approximately HUF 436 billion) Hungarian scheme to support electricity storage facilities to foster the transition to a net-zero economy.

Will Hungary's new energy support system deter investors?

The uncertainties regarding the exact features of this new support system are deterring many investors. 1.4.4 Whilst, currently, Hungary's electricity generation capacities appear to be sufficient to meet demand, many of the generation facilities need decommissioning or updating in the near future.

What is mandatory off-take of electricity in Hungary?

Mandatory off-take of electricity 3.4.6 In Hungary, a mandatory off-take regime supports investments in RES projects. Under this regime, a certain amount of electricity generated by renewable sources during a given period of time must be taken by MAVIR at regulated prices.

How will a €1.1 billion Hungarian measure affect electricity storage capacity?

This €1.1 billion Hungarian measure will facilitate the development of electricity storage capacity. The Hungarian electricity system will be more flexible. The preparation for a higher integration of renewables into the electricity mix, is in line with EU climate and energy targets.

Why is Hungary's electricity generation capacity insufficient?

2.1.1 Hungary's electricity generation capacity is insufficient to meet the country's electricity demands. Hungary often relies upon electricity imported from neighbouring countries. This is an issue that may be aggravated in the coming years due to the ageing generation infrastructure in the country and anticipated plant closures.
