

Import price of energy storage power supply in Jamaica

Overview

Who buys electricity in Jamaica?

JPS also purchases additional electricity close to 297 MW from Independent Power Producers (IPPs) such as Jamaica Energy Partners (JEP), Jamaica Private Power Company (JPPC), Jamalco, and Wigton Wind Farm. The grid currently provides electricity access to approximately 97% of Jamaican households. Jamaica Energy Partners (JEP).

Does Jamaica's energy consumption support low value added activities?

In essence, Jamaica's energy consumption has been increasing at a much faster pace than the expansion of the economy. This could mean that Jamaica's increasing electricity consumption is supporting low value added activities. If the same electricity resource was targeted toward higher value added activities, Jamaica could increase GDP per capita.

How much energy is sold per employee in Jamaica?

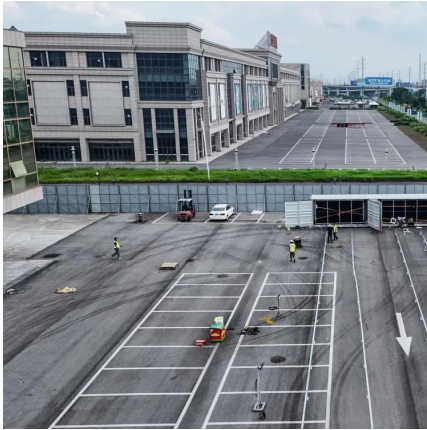

In the case of Jamaica, energy sold per employee decreased from 1,984 MWh in 2004 to 1,919 MWh in 2005. However, by 2008 this figure had risen to 1,987, due partly to reduction in the number of persons employed.

What are the top products imported to Jamaica?

Among the top products imported to Jamaica, Non Crude Oil contributes 9.21%, or US\$1,,138,,264 thousand. The second top import is Passenger Vehicles, which account for 1.40%.
