

Inverter 48v to 24

Overview

● DC DC buck converter can step down the voltage from 48V to 24V and supports 3A/5A/10A-63A current output. ● Input voltage range is 32-60V, with 96% efficiency at 48V input, delivering up to 5A current and 120W rated power. ● Includes short circuit, overcurrent, overvoltage, overtemperature protection, and IP68 waterproof capability. ● Ideal for EV systems, industrial automation, telecom devices, solar power setups, and 24V equipment powered from 48V sources.
