

Ireland Base Station Solar Platform

Overview

What are the newest solar farms in Ireland?

One of the newest announced solar farms in Ireland, Neoen secured an award for the 141MW solar farm in Co. Offaly in the latest RESS 4 auction. The solar project is still in its very early stages and isn't expected to be delivered until 2028. 5. Lysaghtstown Solar Farm - 131MW Status - Under Construction.

Which solar projects are being developed in the Midlands?

One of a number of solar projects being developed in the Midlands by Bord na Móna and the ESB, the Tomahoe North Solar Farm in Co. Kildare will be the first of this partnership to be completed. Construction of the 108MW solar farm began in August 2023, with the first solar panels installed in January 2024.

Is SSE Renewables launching a 'sunny south east' project in Ireland?

Leading renewable energy operator and developer SSE Renewables is taking its first steps into solar energy generation and associated battery storage in Ireland, with plans to develop a co-located project at its existing operational wind farm asset in the country's 'Sunny South East'.

How will Galway and Limerick's new solar farms work?

The new solar farms, located in Galway and Limerick, will have a combined installed capacity of 18-megawatt peak (MWp), allowing them to generate enough electricity to deliver clean, renewable, affordable energy to 4,100 homes.

Can We co-locate solar & battery technology in Ireland's 'sunny south east'?

At Richfield in County Wexford we've identified an ideal opportunity, located in Ireland's 'Sunny South East', to further explore how we can co-locate solar, battery and wind farm technology to realise our full homegrown renewable energy potential.

What are the different layers of solar energy in Ireland?

The solar atlas for Ireland contains various "Solar Energy" layers detailing the different components of solar irradiance and solar generation potential for the country. These layers include: Global Tilted Irradiation. Further details on these layers can be found by visiting the Global Solar Atlas.
