

Ireland PV Energy Storage 15kw Inverter Price

Overview

In Ireland, a 15kW solar system generally costs between €15,000 to €25,000 before any government incentives. The final price depends on several factors including the quality of panels, type of inverter, installation complexity, and whether battery storage is included. How much does a solar PV system cost in Ireland?

A solar PV system costs between €4,600 – €8,700 in Ireland in 2025 with the SEAI grant. The exact price will depend on the number and type of solar panels used. You can expect the peak solar output of your solar PV system to be between 1.76kWp to 7.04kWp.

Should you invest in a solar inverter in Ireland?

By investing in a solar inverter, homeowners can generate their own electricity and save money on utility bills in the long run. So, if you're considering going solar in Ireland, don't forget to factor in the cost of a reliable and efficient solar inverter. Need assistance?

What is the cost of a solar inverter in Ireland?

.

How long does a solar PV system last in Ireland?

For most people, a solar PV system will pay for itself in 5-6 years. After that, it's free electricity all the way. An average household in Ireland can meet 75-100% of its electricity usage just from solar panels, though a solar battery may be needed to reach these numbers especially if you're usually out during the daytime.

How much does a solar inverter cost?

Prices range from the poorer-quality inverters (starting at around €300) to the more reputable options – some of which include remote monitoring – which cost around €800. As inverters are essentially the brains of the solar panel

system, it's definitely worth paying more for great quality.

How much does a solar grant cost in Ireland?

The grant can reduce the cost of solar panels in Ireland by 25% or even more, and so it's a gamechanger for a typical family looking to go solar. In 2024, the maximum solar grant amount is €1,800, but that will be going down by €300 to €1,500 at the start of 2025. Find out more in our Irish solar grants guide.

Are solar panels a good investment for Ireland?

Plus, once the initial investment is paid back, homeowners can continue to enjoy free electricity from the sun and even sell excess energy back to the grid. So, while there is an upfront cost involved, investing in solar panels can lead to long-term financial benefits and a greener future for Ireland.
