Latvian photovoltaic panel specifications

[A study of solar panel efficiency in Latvian climate conditions](#)

In this manuscript, we compare two types of MC and PC solar panels in the temperate Latvian climate. The panels were arranged in pairs, with different orientations - south (S), east (E) and ...

[Saules paneļi , Solar Energy Latvia , Latvia](#)

Iepazīstiet Solar Energy Latvia, kas ir labākais saules enerģijas iekārtu piegādātājs un uzstādītājs Latvijā. Mūsu uzņēmums tika dibināts 2020. gadā, kad mūsu dibinātājs Edgars Pērkonis ...

[A study of solar panel efficiency in Latvian climate conditions](#)

To determine the efficiency of poly- and monocrystalline panels, depending on their spatial orientation and other parameters, a set of test panels was installed in Riga, Latvia in ...
