

Lesotho benefits most from household energy storage

Overview

How much electricity does Lesotho have?

In Lesotho, access to electricity in the urban areas is at 80.6%, while it stands at 37.7% in the rural areas (2021). Housing deprivation contributes the most to the multidimensional poverty index particularly due to limited access to electricity.

What are the benefits of living in Lesotho during a crisis?

1. Shock-affected people in Lesotho are able to meet their basic food and nutrition needs during times of crisis. 2. Vulnerable populations in Lesotho benefit from strengthened social protection systems that ensure access to adequate, safe and nutritious food all year. 3.

What is the basis of Lesotho's economy?

The economy of Lesotho is mainly based on agriculture, mining, manufacturing, livestock, and remittance of workers from the Southern African Customs Union*. Because of its geographical location, it is integrated with the economy of South Africa.*
