

Maldives Smart Photovoltaic Panel Manufacturer

Overview

Why solar PV with storage in Maldives?

Solar PV with storage has proven suitable and competitive for Maldives' high penetration of renewable energy (POISED type B projects), with an average fuel savings of 25%. The concept design of hybrid systems (efficient diesel generators + solar PV plants + energy storage) has resulted in success for Maldives.

What is swimsol solar powerplant at sea?

Swimsol provides a unique solution to achieve desired solar production capacity – floating solar powerplant at sea (offshore solar). SolarSea produces 5-10% more energy due to natural cooling at sea. Swimsol technology is already competitive in islands and tropical regions using diesel for power.

Does swimsol offer a solar PV system?

Swimsol offers an option, where we finance, install, operate PV on customers premises and sell solar energy to the client. This results in cost savings compared to diesel power. Swimsol designs and dimension solar PV systems individually.
