

Maldives photovoltaic panel installation custom manufacturer

Overview

What is solar PV on a resort island?

Solar PV on a resort island a clear sustainability message to your clients and partners Swimsol provides a unique solution to achieve desired solar production capacity – floating solar powerplant at sea (offshore solar). SolarSea produces 5-10% more energy due to natural cooling at sea.

Does swimsol offer a solar PV system?

Swimsol offers an option, where we finance, install, operate PV on customers premises and sell solar energy to the client. This results in cost savings compared to diesel power. Swimsol designs and dimension solar PV systems individually.

Where are solar-diesel hybrid systems made?

System components are pre-assembled by Swimsol in Austria. To ensure system quality and a hassle-free client experience – our team delivers & installs the systems on-site. Our solar-diesel hybrid integrates seamlessly into island grids.
