

Manufacturers of photovoltaic dual solar panels

Overview

Where are dualsun solar panels made?

Our team of engineers is based in Marseille in the South of France. Our factory is based in Jujurieux in the department of Ain. It is ISO 9001 certified to guarantee the outstanding quality of our products. Dualsun designs and manufactures the world's first certified hybrid solar panel (PVT): the SPRING 2-in-1 panel.

What is a dual spring solar panel?

Image: Dualsun France-based hybrid solar module manufacturer Dualsun has launched a new photovoltaic-thermal panel based on shingle solar cells. Produced at the company's recently-commissioned factory in Jujurieux, in the Ain department in eastern France, the Dual Spring panel is the most powerful device ever developed by the company to date.

What is dualsun spring solar hybrid Pvt?

The Dualsun SPRING solar hybrid PVT panel is designed to maximize energy output by generating both electricity and heat. And when SPRING panels are combined with a brine-water heat pump, this power combination provides 6x more solar energy from rooftop surfaces compared to PV. In some cases, it's even up to 15x more energy.

Where are the solar panels made?

70% of the value of the SPRING panel comes from European production: the Dualsun SPRING panel is, therefore, Made in France. By optimizing the energy output of every square centimeter installed and committing to reduce the carbon impact of its production, we have created the most ecological solar technology with SPRING.

Are dualsun solar panels a good choice for a heat pump?

Dualsun's SPRING4 hybrid solar panels are the perfect addition to a ground

source liquid-to-water heat pump to maximize borehole performance and reduce energy consumption: Provides 6 times more solar energy from the roof surfaces compared to PV. Are your electricity needs significantly higher than your heating needs?

.

What is a spring Pvt solar panel?

At Dualsun, we have designed an innovative hybrid PVT solar panel that converts solar energy into electricity and heat with the same panel. The SPRING PVT panel produces 6 times more energy than a standard photovoltaic panel. And in some cases, up to 15 times more.

Manufacturers of photovoltaic dual solar panels

HJT PV module factory,iMYSOLAR,Tier 1 Solar Panels factory,Bifacial PV

Mysolar's patented HJT PV solar modules are the latest products with the N-type HJT high-efficiency solar cells, delivering extremely high power output up to 720W. Mysolar is the ...

[Solar Panels, Solar Energy and Panel Manufacturers , Trina Solar](#)

Our track record speaks for itself As one of the leading solar photovoltaic manufacturers in the world, Trinasolar delivers a smart, industry leading solution for year energy needs.
