

Microinverters in the Netherlands

Overview

Who makes micro inverters?

Enphase, the pioneer of the micro inverter concept, is a globally leading manufacturer as well as supplier of micro inverters. They rank among TIER-1 companies. They are also known for revolutionizing power generation on a global scale. Mr. Raghu Belur and Mr. Martin Fornage established the brand jointly in 2006 in California (USA).

What percentage of gaslicht customers choose Enphase microinverters?

Over the past year, approximately 75 percent of Gaslicht.com's customers have chosen Enphase microinverters for their solar systems. The company leverages its independent and objective comparison for energy suppliers and residential solar systems to enable homeowners to make better and easier energy choices.

What are solar energy systems powered by IQ8 microinverters?

"Solar energy systems powered by IQ8 Microinverters are providing clean, reliable energy to homeowners across the Netherlands," said Willem Tolsma, director at Thermo Energie Heiloo, an Enphase Silver level installer. "Our customers also enjoy the ability to monitor their systems and track the energy production."

Are Enphase microinverters reliable?

Enphase microinverters are subjected to a rigorous reliability and quality testing regimen with more than one million hours of cumulative power-on testing, in the aggregate, to help ensure exceptional performance under heat, high humidity, salty air, and extreme cold.
