

Mobile power box used on construction site

Overview

Power Plus has been providing temporary power solutions for the construction industry for over 35 years. We've worked on residential housing projects, commercial & retail developments, civil engineering projects as well as public works projects. From start to finish, we have temporary power solutions for all.

Before work can begin on your construction site, you'll need temporary power. And to get that power, you'll need to work with a company that can determine the power solutions you need. Generators are an obvious option for temporary power but.

Getting temporary power to your construction site is an involved process. Once you vet different power companies and approve a quote.
