

Nanya Commercial Energy Storage Device Company

Overview

What is Nanya Technology?

Nanya Technology is a provider of high quality DRAM devices, JEDEC compliant, for a wide range of consumer and enterprise products. They offer solutions for automotive needs and serve as a one-stop shop covering a wide spectrum of DRAM technologies from DDR1, DDR2, DDR3, and DDR4, with densities ranging from 512Mb through 8Gb.

What is Nanya DRAM?

Nanya DRAM enables employees to work smart and maximize efficiency in the office place - both at the desk and behind the scenes. Create a smart connected home covering a wide variety of consumer electronics with standard and low power DRAM densities ranging from 512Mb to 8Gb.

What makes Nanya a smart factory?

Nanya's 12-inch wafer fab is equipped with complete infrastructure for smart factory, including automated production lines, IIoT, and big data analytics. We further enhance yield, quality and output with AI applications, including predictive maintenance, production planning optimisation, quality inspection, yield analysis.

Why should you choose Nanya?

Smart devices empower a more productive life with less energy consumption, in which DRAM plays a critical role. Nanya invests consistently in R&D to address the ever-growing demand and provide value-added services. We strive to develop next-gen products, 10nm-class process and 3D stacking technologies secured by IP and trade secret protection.
