

Nanya multifunctional portable power supply customization

Overview

What is Nanya Technology?

Nanya Technology carries a comprehensive mobile product line that covers technologies from LPDDR1 to LPDDR4X, with densities ranging up to 32Gb. Nanya supports multiple package options for low power DRAM that include PoP or BGA or MCP packages depending on customer requirements.

Does Nanya support low power DRAM?

Nanya supports multiple package options for low power DRAM that include PoP or BGA or MCP packages depending on customer requirements. The long term reliability of Nanya's low power DRAM makes us a trusted partner to serve these needs.

Why is Nanya a trusted partner?

The long term reliability of Nanya's low power DRAM makes us a trusted partner to serve these needs. Considering the special package in design work, the alternatives of KGD and RDL services are supported to release from engineering bottlenecks and time-to-market pressure .
